**2. Aarsleff Pipe Technologies**

Lokesvej 10

8230 Aabyhøj, Denmark

[info@arsleff.com](mailto:info@arsleff.com)

State-of-the-art trenchless pipe renewal

Aarsleff Pipe Technologies is the market leader for No-Dig pipeline renewal – the most reliable and cost-effective method available for the renewal of complex pipe systems. Thanks to the No-Dig method and Aarsleff's own technology, a robust lining can be securely fitted inside a damaged pipe

system to render it completely as new without the need to excavate or replace any of the existing infrastructure.

We carry out complex renewal projects in Europe and globally and are able to renew all types of pipe systems, even under very extreme conditions. Aarsleff Pipe Technologies is a division of Per Aarsleff A/S, a Danish infrastructure contracting group with more than 4,000 employees worldwide, over €1 billion revenue and activities including piling, construction and infrastructure work.

### **3. Burmeister & Wain Scandinavian Contractor**

Lundtoftegårdsvej 93 A

2800 Kongens Lyngby, Denmark

39 40 20 00

[www.bwe.dk](http://www.bwe.dk)

Global turnkey contractor and operator of power plants

Burmeister & Wain Scandinavian Contractor A/S (BWSC) is a world-leading turnkey contractor and operator for medium and large diesel engine-based and gas-based power systems. Further, BWSC is experienced in biomass technologies and our expertise ranges from all aspects of plant design to -rehabilitation, operation, maintenance, service and financing.

BWSC has supplied more than 170 power plants to 52 countries and has its origin in the stationary engine division of Burmeister & Wain (B&W), which has built and installed diesel engines since 1904.

BWSC was established in 1980 as a separate specialist company with the aim to develop the known technologies into high-efficient power plants. In 1990, BWSC was acquired by Japanese Mitsui Engineering & Shipbuilding Co. Ltd. (MES).

### **4. Callenberg Technology Group**

Lille Tornbjerg Vej 20

6220 Odense SØ, Denmark

[ctg.denmark.info@callenberg.com](mailto:ctg.denmark.info@callenberg.com)

Company profile:

Callenberg Technology Group is an international provider of fully engineered Insulation, HVAC and Electrical Energy Management solutions for the maritime, offshore and energy markets.

### Electrical Energy Management

We design, produce, install, commission and service electrical and energy management solutions for newbuilds and retrofit projects. Our portfolio includes energy management, automation, electrical engineering & contracting and switchgears. We have more than 40 years experience in building switchboards.

### Insulation

We are the leading provider of low temperature and cryogenic insulation technology for liquefied gas cargos and NGL pipe applications. Within the offshore industry, we are providers of traditional insulation and architectural outfitting.

### HVAC

We design and deliver HVAC and refrigeration solutions for the lifecycle of a vessel, rig or platform, supported by a worldwide network of after-sales stations.

### • **Danfoss**

Danfoss Turkey

Adress: Pakdil Sok.No:• Bir Plaza B Blok Yukaridudullu

Umraniye / İstanbul, Turkey

Phone: +90 216 700 0000

Fax: +90 216 026 4097

E-mail: [danfoss@danfoss.com.tr](mailto:danfoss@danfoss.com.tr)

Web: [www.danfoss.com](http://www.danfoss.com)

Danfoss engineers technologies that enable the world of tomorrow to do more with less.

We meet the growing need for infrastructure, food supply, energy efficiency and climate-friendly solutions. Our products and services are used in areas such as refrigeration, air conditioning, heating, motor control and mobile

machinery. We are also active in the field of renewable energy as well as district heating infrastructure for cities and urban communities. Our innovative engineering dates back to 1933 and today Danfoss is a world-leader, employing 24,000 employees and serving customers in more than 100 countries. We are still privately held by the founding family.

In 2014, net sales grew to the record level of DKK 34,4bn (EUR 4,6bn) against DKK 33,6bn (EUR 4,0bn) in 2013, corresponding to 4% growth in local currency. The operating profit (EBIT) before other operating income/expenses was a record high of 12,7% of sales, amounting to DKK 4,4bn (EUR 0,84m) against DKK 3,9bn (EUR 0,79m) in 2013, equal to an improvement of 12%.

## 6. Danish Maritime Authority

Carl Jacobsens Vej 31

2000 Valby Denmark

[www.dma.dk](http://www.dma.dk)

The Danish Maritime Authority is a government agency under the Ministry of Business and Growth

The field of responsibility is:

- 1 The construction, equipment and operation of Danish ships (including safety, terror prevention, navigational regulations, manning, occupational health and environmental protection) as well as port State control of foreign ships calling at Danish ports.
- 2 Ship registration.
- 3 Seafarers' employment, health and conditions of social security.
- 4 Shipping policy, maritime law as well as industrial policy, both nationally and internationally.
  - o Tasks related to aids to navigation at sea and ashore (lighthouses and buoys), including ships and repair workshops.
- 5 Navigational information in the form of navigational analyses, warnings, GIS and specialist publications.
- 6 The national pilot authority.

## ∇. **DEIF Wind Power Technology**

+45 96 14 96 14

[info@deifwindpower.com](mailto:info@deifwindpower.com)

[www.deifwindpower.com](http://www.deifwindpower.com)

Technological partner and supplier of critical turbine components and complete solutions

DEIF Wind Power Technology is an independent business area of DEIF A/S, established in Denmark in 1933 and is a global supplier of green, safe and reliable control solutions for decentralized power production, marine/offshore and wind turbines.

DEIF Wind Power Technology builds global partnerships, acts and adapts locally for technology transfer to suppliers who aim to deliver high quality solutions and support to local markets. Our robust turbine components, complete solutions and technology are developed for upgrading old and new turbines in all environmental conditions. With our wind turbine technology, we can master all sizes and types of turbines. We supply solutions such as Retrofit, Refurbish, Wind Park Control, Pitch Control Systems and Turbine Control.

## ∧. **DESMI Pumping Technology**

Tagholm 1

9400 Nørresundby , Denmark

[www.desmi.com](http://www.desmi.com)

DESMI – Proven Technology delivered to the world for more than 180 years

DESMI is a global company specializing in the development and manufacture of pumps and pumping solutions and oil spill response equipment.

We manufacture high-quality and energy-efficient pump solutions for various applications:

Marine: Seawater, ballast, fire-fighting etc. incl. ballast water treatment systems and OptiSave™ – Energy Saving Systems

Industry: Chemical processing incl. applications like asphalt, chocolate, oil, sugar etc.

Utility: District energy; District heating and cooling.

Within oil spill response we have a full range of state of art equipment for Nearshore, Offshore and Deep water requirements; Booms, Skimmers, Pumps, Floating storage barges, Dispersant Spray Systems and Workboats.

DESMI is a global company with offices in 16 countries around the world. We are 4000 employees and have delivered proven technology since 1834.

#### 9. **DISA Industry**

Højager 1

2630 Taastrup, Denmark

[www.disagroup.com](http://www.disagroup.com)

DISA is the leading global provider of innovative foundry technology

DISA develops and manufactures a complete range of metal casting production solutions for the ferrous and non-ferrous foundry industries. A long-standing tradition of innovation, reliability and commitment to providing its customers with competitive business value results in DISA today enjoying the trust and loyalty of leading foundries all over the world.

Broadest Industry Offer

DISA's moulding product portfolio comprises vertical (DISAMATIC®), match plate (DISA MATCH) and horizontal (DISA FLEX) green sand moulding systems. For many customers the company provides complete integrated foundry lines which, in addition to the moulding technology platforms, include complete sand plants, conveyor systems, cooling drums, cleaning solutions, CIM modules and core machine plants.

By participating in the delegation, we would continue to develop the business opportunities in Iran.

## ١٠. **DSV**

Hovedgaden ٦٣٠

٢٦٤٠ Hedehusene, Denmark

[www.dk.dsv.com](http://www.dk.dsv.com)

Your GLOBAL TRANSPORT PARTNER

The Project Division of DSV Air & Sea A/S

As a division within the DSV group the DSV Air & Sea is your perfect global partner.

We are looking forward to the lifting of the sanctions enabling us again to offer all types of shipments to Iran - FULL LOADS - PROJECT CARGO - PROJECT MANAGEMENT - AIR FREIGHT - AIR CHARTERING - SHIPS CHARTERING.

We will also operate part load service between Europe and Iran as well as between Turkey and Iran on a regular basis. Perfect for any company wishing to commence trading with Iran.

All transport services carried out by the Project Division are in compliance with:

ISO ٩٠٠١:٢٠٠٨ / ISO ١٤٠٠١:٢٠٠٤ / OHSAS ١٨٠٠١:٢٠٠٧ Turkey

ISO ٩٠٠١:٢٠٠٨ / ISO ١٤٠٠١:٢٠٠٤ / OHSAS ١٨٠٠١:٢٠٠٨ Denmark

## ١١. **Evergas**

Kalvebod Brygge ٣٩-٤١

١٥٦٠ København, Denmark

[rif@evergas.net](mailto:rif@evergas.net)

Evergas is a Danish shipping company established in ١٨٨٣, wholly owned by Greenship Gas & Jaccar Holdings. We are a world leader in seaborne transportation of petrochemical gas with focus on ethane, ethylene and LPG.

We offer our customers safe, simple, innovative and efficient shipping solutions.

Part of our global strategy is to position the Company for the development of Liquefied Natural Gas, Natural Gas Liquids distribution. Transportation of LNG and LPG is of particular interest for Evergas in Iran.

Evergas seeks to establish contact and create long-term relationships with Iranian partners within petrochemical and utility industries. The partners we seek to do business with will have a long-term perspective on the maritime and energy sector and actively looking for top tier service providers to support their product value chain.

## ۱۲. **Force Technology**

Hjortekaersvej ۹۹

۲۸۰۰ Lyngby, Denmark

[www.forcetechnology.com](http://www.forcetechnology.com)

FORCE Technology – your trusted advisor

Competence – FORCE Technology is among the leading technological consulting and service companies worldwide to the offshore and maritime industries.

Commitment – we make a targeted effort to deliver highly specialised engineering knowledge for the offshore industry as well as the maritime industry where we focus on port studies and realistic simulator-based training.

Efficiency – whether it is a subsea inspection or a human factors analysis, we strive to deliver practical and cost-effective solutions.

Experience – we excel in hydro- and aerodynamics, and our NDT as well as our integrity management services are reliable and effective. The solutions enhance customer competitiveness and are based on the customer and industrial insight that we have acquired over more than ۷۰ years.

## ۱۳. **Gram & Juhl**

Soendergaard Allé ۱۴

۶۰۰۰ Vojens, Denmark

+۴۵ ۷۰ ۲۰ ۲۱ ۶۹

[sales@gramjuhl.com](mailto:sales@gramjuhl.com)

[www.gramjuhl.com](http://www.gramjuhl.com)

Optimize Cost of Energy with TCM®

The Turbine Condition Monitoring (TCM®) solution from Gram & Juhl comes with knowledge and experience from more than 10,000 wind turbines installed worldwide.

With TCM®, we promise you a reduction in turbine downtime, an increased return on your

investment, and a proactive maintenance plan that will help you to secure your assets and investment well into the future. The end result is optimized cost of energy.

TCM® increases productivity and profitability by:

- Giving you a complete overview of your turbines' condition in all wind farms
- Increasing production by prevention of costly breakdowns
- Reducing repair costs
- Improving cost efficiency of maintenance and services
- Lowering insurance premiums
- Lowering warranty costs
- Documenting turbine life cycle

**14. Grundfos**

Contact : Henning Sandager

Area Managing Director – Middle East

GRUNDFOS Gulf Distribution FZE

P.O. Box 16768

United Arab Emirates

Phone: (+971) 4 8810 166

Grundfos is a global leader in advanced pump solutions and a trendsetter in water technology.

Annual production of 16 million pumps makes Grundfos one of the world's leading pump manufacturers. Pumps for heating and air-conditioning and pumps for the industry, water supply and waste water are the main products. In addition, Grundfos manufactures standard & submersible motors, drives & controls, sensors, dosing & disinfection systems as well as package systems for applications within buildings, industry, water & waste water utility. Sustainable solutions and setting the highest industry standards in energy efficient pumping solutions is key for Grundfos. Grundfos is represented by more than 80 companies in more than 100 countries. Grundfos products are sold by local distributors in Iran, through strong partnerships for many years!

#### 10. **Haldor Topsoe**

Mitra Heidarpناه, Technology Sales Manager, Haldor Topsoe A/S

Cell: +90 22 70 43 90

Email: [mith@topsoe.dk](mailto:mith@topsoe.dk)

Making optimal performance possible

– in Iran and around the globe

Topsoe is a world leader in catalysis and surface science, committed to optimal performance for our customers. Our high-end catalysts, supported by engineering, technical, business and training services, help our customers get the most out of their processes and products, using the least possible energy and resources.

We design, engineer and license a broad range of processes for chemical processing, hydroprocessing and emissions management. Topsoe offer over 100 different catalysts and we design and manufacture catalysts and equipment tailored for specific customer needs.

Topsoe's methanol technology is being used in Iranian plants today. Other services of particular interest in Iran are natural gas to chemicals (ammonia, methanol, gasoline, DME etc.), hydrogen production, wet gas sulfuric acid

(WSA), flue gas desulfurization (SNOX™), and refinery (hydroprocessing, environmental, sulfur management).

Get in touch!

#### 16. **Hempel**

Lundtoftegårdsvej 91,

2800 Kgs. Lyngby, Denmark

[www.hempel.dk](http://www.hempel.dk)

Hempel is a world-leading coatings supplier for the decorative, protective, marine, container and yacht markets

From wind turbines and bridges to hospitals, ships, power stations and homes, our coatings protect man-made structures from the corrosive forces of nature.

With a focus on R&D, advanced production techniques and professional coating advice, we work around the globe to help keep our customers' investments safe and beautiful for longer. Our working concept is simple: we are curious, creative and self-critical, and always aim to create extra value for our customers.

In short, if you have something to paint, we most likely have a solution for it. All you need to do is ask.

We also believe that the coatings industry can and should contribute to a better environment. So we invest in advanced waterborne products and innovative ideas to help customers cut fuel consumption, reduce emissions and hit their environmental targets.

1310 Copenhagen K, Denmark

IFU – investment partner providing risk capital and emerging market expertise

IFU is an independent government-owned development finance institution providing risk capital to companies setting up business in developing countries. IFU's purpose is to create economic growth and development in the investment countries and enhance the opportunities of Danish trade and industry in emerging markets.

IFU provides share capital and loans on commercial terms for projects with a Danish investor or Danish commercial interest. IFU has expertise gained from investing in close to 1,200 companies operating in 100 countries.

IFU is fund manager of four other funds, including the Danish Climate Investment Fund, established to promote climate investments in developing countries.

IFU has its head office in Copenhagen and 10 regional offices in Asia, Africa, Latin America and Eastern Europe.

Arla Foods a European farmer owned dairy company with a global foot print

Arla is owned by more than ۱۲,۷۰۰ farmers in ۷ countries who produce most of our milk. They are passionate about producing high quality milk in a responsible way. With more than ۲۰,۰۰۰ global employees at the heart of our business we establish our position as one of the largest dairy companies in the world. Our brands Arla®, Puck®, Castello® and Lurpak® make us a vital, natural part of modern life globally. Our ambitions is to create the future of dairy. Arla is committed to bring safe, sustainable, nutritious and high quality dairy products to the world, naturally. We want to grow and we care about how we do it. We build long-term relationships with our partners.

### ۳۷. **Carletti**

Grenaavej ۶۴۱

۸۰۴۱ Skoedstrup, Denmark

Direct: +۴۵ ۸۷۴۹ ۰۲۱۴

Mobile: +۴۵ ۲۱۷۱ ۹۷۲۵

E-mail: [hbn@carletti.dk](mailto:hbn@carletti.dk)

[www.carletti.com](http://www.carletti.com)

Carletti – a world of chocolate and candy since 1918

Carletti can trace its origins back to 1918, when two brothers, Henry Peder Jacobsen and Niels Carl Jacobsen, established the wholesale company Brdr. Jacobsen in the heart of Aarhus, Denmark. Carletti means “little Carl” in Italian.

Carletti has two production facilities, one in Denmark and one in Poland - certified to international standards (BRC and IFS) to ensure the highest level of food safety and they produce:

Chocolate gift boxes, other chocolates, Drageé, Winegum, Licorice and Toffees

At Carletti our values are as follows:

1) Customer-orientation: a) No customers, no Carletti. b) Dynamic and close partnership

2) Responsibility: Towards our customers, shareholders, the environment and ourselves

3) Quality awareness: High quality in everything we do and constant focus on improvement

Our aim with participating in this business delegation is to find a partner in Iran who can market and distribute our products to the Iranian people.

### 38. **DLF Seeds A/S**

Ny Østergade 9

4000 Roskilde, Denmark

[www.dlf.dk](http://www.dlf.dk)

DLF: Grass for farming, for sport, and for family life

DLF is a global seed company dealing in forage and amenity seeds, and other crops. We're the global market leader providing grass and clover seeds to more than 100 countries. With a 60% market share in Europe and 20% worldwide, there's a good chance the animals that provide your milk, meat, and wool gathered the nutrition they need from our grass. If you enjoy sport, you may well have seen your favorite team score on a pitch turfed with our grass. And if you like relaxing on your own garden lawn, that too may well have begun life as a sack of our seeds.

Science develops better seeds

Roughly 10% of our 800 employees are involved in research. We run plant-breeding programmes across the world to produce varieties that flourish in harsh climates, on challenging soils, and for the most demanding and critical audiences on the planet.
