4.	Ltd. The Ural Optical Plant	Mr. Cherepanov Nikolai, CEO	Production of an optical cable and optical fiber Production of wireless infrared optical communication systems	Ministry of Communications and communications of Iran Ministry of investments and development of Iran Ministry of Industry and trading of Iran Iranian telecom operators and telecommunications Private and state investors The enterprises which are engaged in processing of the fulfilled engine and technical oils Monad OIL FZC company (SasanI.Maghsoodi) The companies which are engaged in transportation of oil and gas
5.	JSC "Sverdlovsk Instrument Plant" www.siz66.ru	Mr. Lubaev Andrei, General Director (CEO)	Sverdlovsk Instrumental Plant is offering a variety of metal cutting tools and machine tools in order to solve most complex problems and needs of any production. Our company provides unique and special cutting tools including but not only end metalworking, metalwork, metal processing: <ul style="list-style-type: none"> • Carbide cutting tools • Broaches, hobs, gear worm cutters • Bi-metal band saw blades • Molds and dies • Professional tools (welding, grinding, measuring, electric and pneumatic tools) • Machine tools (milling, turning, grinding and cutting machines) 	Engineering industry; Tractor plants; mining machines companies

6.	LLC Machine-building Plant named after V.V. Vorovsky www.ziv.ur.ru	Mr. ShishkinArtemDmitri evich, General director	Production of robust drilling and geology –prospecting equipment for the well sof up to 350 meters deep by means of core, auger, roller bit and air pneumatic drilling with washing and flushing.	-The Ministry of mining minerals / gas / oil / gold / diamonds / ore -The Ministry of exploration The enterprises extracting the minerals and exploration -Building Company applying well drilling The enterprises leading trading equipment for exploration and builders
7.		Mr. Shigaev Alexey, Plant director	Area of application: - oil and gas well drilling, geologic exploration , water well drilling - drilling and blasting,	
8.	Envirochemie www.envirochemie.ru	Mrs. ChebotaevaMarina, CEO	Industrialwastewatertreatment	Looking for potential customers of company's products and services: - Dairy; - Brewery; - Automotive production; - Metallurgy; - Machine building; - Chemical production; - Foodproduction; - Solarindustry; - Slaughterhouse; - Cosmeticsproduction; - Glass production; - Mines
9.	Firefighting vehicles plant "Spetsavtotekhnika" http://www.specialauto.ru/eng/	Mr. NikolashkinAlexandr e, CEO	Manufacture of fire and rescue technique. Manufacture of highly effective fire extinguishing system by compression foam NATISK (on any automobile chassis, mobile units)	1. Heads, specialists (responsible for fire safety and logistical support) of the companies of the following industries: - oil and gas industry (enterprises of fuel and energy complex) and mineral resources, fuel stations, - mining industry, mining and processing plant, mineral resources,

				- chemical industry, 2. Ministry of Energy, Ministry of Petroleum (MoP) 3. Ministry of Emergency Situations, Fire Department (necessarily of high rank, which are making decisions on equipping of divisions) 4. The owners of buildings, constructions (office buildings, shopping centers, business centers), design organizations. 5. Heads/owners of large retail networks, restaurants, hotels
10.	CJSC ENERAL	Mr. Segal Alexey, generaldirector	Industrial electrical equipment development and production (electric motors, pumps, electrical power station, reducers, water pumps) Electrical equipment wholesale	Potential consumers of electrical equipment (metallurgical, chemical, oil industry, agricultural companies, etc.)
11.	Remstroypu http://www.rails.ru/	Mr. Fomin Leonid, CEO	This company offers full range of products and services for railway construction	Iranian companies are interested in the repair and construction of railway lines
12.	AVTOPROMMARKET LLC www.avtoprommarket.ru www.apm-logistic.ru	Mrs. Soldatova Irina, CEO	Activities: process design of warehouses and facilities warehouse purposes, production of metal structures, mobile ramps, sale of forklifts (official distributor CLARK, ATLET by UNICARRIERS, side loaders HUBTEX, storage, handling, cleaning equipment, service and repair, rental, spare parts and accessories.	Industrial enterprises are building with warehouses. Developing warehouse logistics.
13.	VALETA LTD www.valeta.ru During B2B discussion this company will	Mr. Shuvaev Mikhail, CEO	Pharmacy retail. Woodworking.	Construction companies. Companies engaged in timber trade.

	communicate together with Gorodskieapteki LTD			
14.	JSC "TIZOL" www.tizol.com	Mr. Mansurov Mikhail, CEO	Manufacturing of nonflammable construction, technical thermal insulation, for shipbuilding including, and also systems of constructive fire protection of building structures and air ducts.	With representatives of the construction, shipbuilding and trade companies related to the construction, shipbuilding and fire proof materials.
15.	«Penetron-Russia» www.penetron.ru	Mr. Chernogolov I., CEO	Production of concrete The manufacture and sale of waterproofing for concrete	Construction companies, designers, architects
16.	Corporation «Mayak», LLC www.ural-mayak.ru During B2B discussion will communicate together with Research and production complex Ural Oil Service	Mr. BlochinStanislav, vice-president	Civil construction Hotel business Mining (gold, semiprecious stones) Alcoholic beverages factory Shopping Malls	1) Companies involved in the organization of tourist trips to Russia. 2) partners and investors in the area of mining 3) partners and investors in the construction industry Goals: 1) Meet with the potential partners and investors in the construction and mining industries. Presentation of projects. 2) To find partner for the organization of tourist trips to Russia. Presentation of the hotel complex Ramada. 3) Search for partners to establish a joint business for the sale of goods from Iran on the basis of shopping centers owned by the company. Presentation of the shopping center.
17.	Research and production complex Ural Oil Service, LLC http://geron-uns.ru/ During B2B discussion will communicate together with Corporation	Mr. AntokolskyEvegeniy, head of international department	Research and Production Complex "UralNeftService" is specializes in the design, manufacture and service of oil and gas equipment. At the enterprise the research and development works to the creation and improvement of the hydraulic drive for deep well pump are being carried out. This technology is replacing the outdated mechanical pumping unit.	Oil and gas companies. Suppliers of equipment for oil and gas companies. Partners for organization of joint venture Goal: Provision of information about the equipment for oil extraction, negotiations and, in the future, signing the contracts.

	«Mayak»			
18.	Logistic company “Zheldorintegratsiya” www.zde.ru	Mrs. Bezdenezhnykh Elena, Deputy General Director	Trucking in Russia and abroad. We offer you a full range of freight forwarding services, transport by rail and road. Thanks to an extensive network of offices, we can work without any intermediaries and control the entire course of transportation.	Meetings with Iranian companies interested in the transportation to Russia
19.		Mrs. Averianova Natalia, Sales Director	In addition to transport bulky cargo, our specialists have extensive experience in the organization of transport of oversized loads.	
20.	«EMA Plant» www.ema.su	Mr. Gusarov Vladimir, Executive Director	Medical equipment production: 1. Surgical lights, 2. Observation / diagnostic lights, 3. Magnetotherapeutic apparatus, 4. Bactericidal irradiators.	1. Companies executing state procurement of medical equipment in Iran. 2. Companies selling medical equipment in Iran. 3. Representatives of medical institutions interested in purchasing medical equipment in Iran. Goal: Search for partners interested in purchasing and promotion of our products in Iran
21.	VTK OPTIMA LLC. (VTK Optima) www.vtk-optima.com/en/	Mrs Vasilieva Olesia, CEO	Import/Export Marketing Foreign Economic Activities Outsourcing . This service is the most popular for companies engaged in wholesale and retail trade of foreign goods; Used in the manufacture of imported equipment, materials and supplies, as well as for those who sell their own products abroad (export). Yet the main purpose of service - remove from your cares on the organization of business processes that are not core to the company, thereby freeing up more time and manpower and concentrate on the development of the main products of the company, improve their quality to ensure a competitive advantage. 				And companies that supply craft paper for manufacturers that use paper for wrapping their products.
22.	DAKA LLC www.daka1.ru	Lavrov Igor, managing director	<p>“DAKA” LLC provides:</p> <ol style="list-style-type: none"> 1. Creating and implementation of solutions of preparation and painting of production of enterprises of industrial sector, the corrosion protection of residential and industrial buildings and constructions, energy facilities, oil and gas, mining, food processing, chemical industries, comprehensive supply of contractors who work in construction and corrosion protection of industrial objects 2. Deliveries of blasting equipment manufactured in Russia for the preparation of any surfaces before application of the protective coating, 3. Supply of professional painting equipment for application of all types of protective and decorative coatings, 4. Supply pumps for dosing and distribution of oil products, chemicals, food and water 5. Supply of paints, flame retardants, waterproofing, insulation, sealants, adhesives, compositions for industrial floors, etc.. 6. Production of abrasives for sandblasting cleaning any surfaces before applying protective and decorative coatings. 	<p>1. Companies of sectors: oil and gas, chemical, power, industrial sectors that use materials and equipment for painting of its own products, Companies which provide the protection of buildings and structures, construction of new buildings, Companies who look for possibility of streamlining and improving the efficiency of these processes.</p> <p>2. Companies of chemical, food, petrochemical industry, which uses in process transferring, dosing and handling fluids and chemicals.</p> <p>3. Trading and engineering companies specializing in the supply of equipment and materials, ready to become distributors of products from the Russian Federation for Iranian industrial companies operating in the sectors of mechanical engineering, oil and gas, energy, chemical industry, food processing, petroleum refining industry, in the field of construction of civil and industrial projects.</p> <p>Goals:</p> <ol style="list-style-type: none"> 1. Getting ideas about the development of the industrial enterprises of Iran and market capacity 2. Getting information and understanding of the rules and conditions of work with the Iranian partners in terms of exports to

				<p>Iran,</p> <p>3. Search and establishment of business relations with potential partners - distributors of products,</p> <p>4. Search and establishing business relationships with potential clients, customers of equipment and materials</p>
23.	<p>Ltd. The research and production enterprise “Unikom Service”</p> <p>www.unikom-service.ru</p>	<p>Mr. Pozmogov Kirill, Head of Marketing Department</p>	<p>The production of polyurethane products. Solutions for petro-gas industry (Pipeline pigging tools, strippers), mining (screens and polyurethane-lined steel pipes), metallurgy (polyurethane rollers), pulp industry (polyurethane coating of rolls), engineering.</p>	<p>They would like to have B2B meetings with technical experts of following companies: First of all unit petro-gas company engaged in oil or gas transportation. Analogue in Russia – Transneft, Gazpromtransgas. National Iranian Oil Company, National Iranian Petrochemical Company, National Iranian Gas Company. Also we are interested in meetings with representatives of pulp mills, metallurgy mills, mining plants. National Iranian Copper Industries Company, Chadormalu Mining and Industrial Company, GolGohar Iron Ore Company, Mobarakeh Steel Mill, Iran National steel Industries Group, Ahvaz Pipe and Rolling Company, Galvanized sheet production in the city Shahrekord</p> <p>Please see additional information</p>
24.	<p>Limited Liability Company “ECOMASH + URAL”</p> <p>www.ecomash-ural.ru</p>	<p>Mr. Davletov Eduard, Deputy Marketing Director</p>	<p>The company specializes in the production of high-pressure stop armatures for extractive industry - oil and gas sector.</p>	<p>National Iranian Oil Company (NIOC) Tehran.</p> <p>This National Iranian Oil consists of the following subsidiaries (headquartered in Tehran): National Iranian South Oil Company, Iranian Oil Fields Company, National Iranian Central Oil Company, National Iranian Drilling Company, Khazar Oil Exploration and Production Company,</p>

				Iran Petro Development Company, Pars Oil and Gas Company. Goal: To sign the agreements and to make export contracts for the supply of high-pressure stop armatures with National Iranian Oil Company(NIOC)
25.	Tagil Pipe Company http://tagilpipe.ru/en/main/	Mr. StrugovEvgeniy, Commercial Director	Tagil Pipe Company specializes in the supply of steel pipes and fittings, and in the application of thermal insulating, waterproof and anti-corrosion coating to steel pipes and fittings.	First priority: Representatives of oil and gas companies in oil and gas, transportation of oil and gas. Second priority: Construction of water pipelines, pipelines for housing and communal services (installation company, management company, TPP, TPP, etc.) Third priority: wholesale metal traders, storage kits, metal bases). Main objectives for participation in the business mission: <ul style="list-style-type: none"> • Search for customers in the fields of mining and oil and gas transportation, housing and communal services, energy, metal traders. • Presentation of the company and our products • Establishing contacts with the Russian trade representative office in Iran
26.	«Uralsorena» www.uralsorena.ru During B2B discussion this company will communicate together with «UralArmaProm»	Mr. Zorkin Sergey, Director of the Office in Russia	Assistance to Russian and Iranian companies in the export / import	Projects for implementation: 1. Problem of renovated communications water supply and sanitation due to the density developments in Iran. Project goal: to present the technology to repair water and sewage systems using trenchless technology. Project Advantage: fast and high quality repair by the

				<p>latest technology communications from existing wells without additional excavation of roads, lawns.</p> <p>2. Construction and major repairs of low-rise houses and buildings in Iran. Project goal: to present the technology of repair and a rapid construction of low-rise houses and buildings made of polystyrene. Project Advantage: Polystyrene - an inexpensive and high-quality material that meets all the internal requirements for the construction and repair of houses and buildings. The rate of construction of a two-storey house with an area of 200 sqm on a ready foundation up to 10 days.</p> <p>3. Large-scale construction and repair of roads, bridges, coastal fortifications, low-rise construction in Iran. Project goal: to present the technology for the production of non-metallic composite reinforcement. Equipment TECHPRO 2000 and rebar samples (this equipment is approved NIIZhB Moscow) will be presented. Project advantage: composite materials manufacturing technology is in great demand all over the world because of their alternative metal, and having a number of advantages over them.</p> <p>Meetings with:</p> <p>1. Ministry of roads and urban development Minister Abbas Ahmad Akhund</p> <p>2. The Ministry of Industry and Trade Minister Mohammad-Reza Nemat-Zadeh</p> <p>3. From the producers of goods and services Companies oil industry and gas industry, and</p>
27.	«Continent» Special	Mr. LeonovVasiliy,	Production of special off-road tracked vehicles for the	

	Use Vehicles Plant LTD www.ezsm66.ru	Director	oil industry and power engineering, metal processing, stamping, casting	power engineering
28.	RUSSIAN SOUVENIRS Ltd.	Mr. PidgakovAndrei, CEO	Manufacture and sale of products for the woodworking industry	Wood industry and furniture industry
29.	Gorodskieapteki LTD www.deliv.me During B2B discussion will communicate together withValeta	Mr. Shuvaev Igor, Deputy Director	Pharmacy retail. Woodworking.	Construction companies. Companies engaged in timber trade.
30.	LLC «UralArmaProm» During B2B discussion this company will communicate together with Uralsorena	Mr. Zorkin Sergei, Deputy Director	Innovative technologies and equipment for industrial and civil construction	1. Ministry of roads and urban development Minister Abbas Ahmad Akhund 2. The Ministry of Industry and Trade Minister Mohammad-Reza Nemat-Zadeh 3. Since producers of goods and services aimed at development of bilateral cooperation in science and technology innovation sphere
31.	Breeding poultry reproducer “Sverdlovsky”	Mrs. Markelova Natalia, Head of breeding sales department	Egg poultry. Sales of breeding hatching eggs and day old chicks.	Egg production farms, purchasing parent stock
